I have been studying in Heinrich-Heine-Universität for one semester (Sommersemester) and I cannot be happier for choosing this university. The professors try to do the best for you, they adapt themselves to your necessities and you can count on them for everything. Me, as an Erasmus student, I have felt like I was at my home university. Also, the administration is fast and the coordinator (Sonia) tries to help you since the first moment. I highly recommend this university and city because it is a city where, in spite of being small, you can make plans everyday and also, the university organises parties for getting in touch both, the international and the local students. I also want to highlight the environment and the facilities of the university. I have been so happy and I am sure that I will come back.
