I am Deborah, a student from Italy and I have never made a better decision than to take part in the Erasmus project. This experience gives you something that you will carry with you for the rest of your life, something that goes beyond simply improving your language. Erasmus gave me the opportunity to better discover a country I was very fascinated by, to meet many people from worlds different from mine who taught me so much and left me with so many memories. It gave me the chance to get to know myself better and learn to validate the time I spend alone without necessarily feeling lonely. Besides improving my German, this Erasmus has helped me learn more about life and has given me experiences I will never forget. Above all, the university experience is something I will miss a lot once I return home. The great range of facilities, study environments, the tranquillity, being surrounded by green areas and having contact with nature gives a feeling of well-being that helps students so much and makes the time spent at university enjoyable and less stressful. Above all, I had a fantastic experience with the professors, who were all always very kind and helpful, capable of conveying a love for the subject they teach and thanks to this I will take with me, in Italy, not only the new things I learnt but a positive memory of how I learnt them. Having said that, I can only advise everyone to embark on an educational experience like Erasmus, it is scary at first but in the end you would never want to go back!
