Firstly I must say that I had a really seminal period academically at HHU. My supervisor Dear Vomberg has been always encouraged me and always friendly and helpful. I always have felt that she was standing by me during my field study here. Also my colleague Dear Florian Meier has been very friendly and he did a lot to organize a campus event in the university. I admire the freedom atmosphere here when I compare it to my own country. However, I was a little disappointed with the attendance. I was told that the students usually prefer to spend their time outside of the campus and campus events usually have problems with attendance. This is partly due to the Corona but I think you should organize many more cultural campus events on the campus when we are done with the pandemic. I have also taken two courses for the experience. They have also broadened my academic and cultural vision. I am happy to decide to have such an experience. I am also grateful to the International office, they have been always patient against my exhausting questions about the procedures especially before I came here :). The most difficult thing for me is actually not about the university but the city, or with Germany in general. I think you should extend the duration of Christmas markets :) at least until February. It became sometimes really impossible to live in the city in "grey" January without them. I think the buddy program is a really well-intentioned initiative, but they could do something more than regular Mensa meetings. Yet, I have built up very friendly contacts thanks to this program. I recommend the future students to take a German course in order to both have friends and to watch my teacher Dear Peter's passion and performance. My best memories are from this course and my best friends here are from this class. Thank you for everything.
