My experience as an Erasmus student at HHU during 2020-2021 was a journey that began in one place and ended somewhere completely different. I came to Düsseldorf in October 2020 right when the pandemic caused everything to close down (again) and it seemed like a ghost town, and now as I leave almost everything has reopened and I have spent around a month in an entirely different city that I don't recognize from last semester. Despite the Corona pandemic, which clearly affected everything heavily in the beginning, the exchange was definitely worth it. The organization of the exchange and also the courses and students at HHU were very well adapted to make the best of the situation. Düsseldorf is a great city for an exchange that I would recommend anyone who is interested in going abroad for a semester or two, and I am very sad to leave.

During my time at HHU I have been introduced to new areas within my field of study that I didn't know existed before coming here. All universities do things slightly differently, and I think it is a great opportunity to see how the same topic is taught and conducted in another part of the world. I will come back to my home institution with a different perspective than I could ever have had if I stayed there for my entire studies. I have made friends from all over Europe that I will probably know for the rest of my life thanks to ESN (Erasmus Student Network) and this whole year has been an experience that I will never forget. It has become clear to me that this is exactly what exchanges are meant for and I am incredibly grateful that I was given the opportunity to do this.
